

# Round Table CARST 2017

**Summary: Crowd source potential solutions to issues that have been holding you back. Join us for an entertaining group discussion on issues that matter to your business.**

CE credits: **2**

Hours: 1.75

Instructors: Eric Bjornson and Colin Dumais

Roundtable description:

A roundtable is a facilitated discussion that gives each participant the maximum amount of group input on a given subject of common interest in a short amount of time. You can find solutions to problems in your business that others have solved and hear about problems you haven't faced yet but likely will in the future.

Goal and objectives:

- Facilitate a meaningful group discussion that is engaging and helpful
- Identify areas of common interest
- Keep a fast pace
- Draw as many people into the discussion as possible
- Talk to everyone in the group not just the facilitators
- Keep your comments brief and to the point
- Everyone is welcome to share
